- Preparing findings for peer-reviewed publication in the International Journal of HRM and Journal of Organisational Effectiveness: People and Performance.

PROFESSIONAL EXPERIENCE

Relationship Officer - Head of Cambridge, ICICI Bank UK PLC -

Dec 2025 - Present

Central London & Cambridge, UK

- Expanded remit in Cambridge to cover business banking, corporate banking, commercial real estate (CRE), home loans and capital markets investment guidance under ICICI policy, building a multi-product relationship management practice from the ground up.
- Built a business banking book of 10M from scratch -sourcing, pitching and negotiating with local businesses for multi-currency accounts (GBP, USD, EUR), savings and term deposits, trade finance, POS, FCNR, FCNR Leverage and cross-border payment services, and access to 13 Nostro global currencies -surpassing acquisition targets by 132%.

- Conducted financial modelling, credit memorandum preparation and ratio/cash-flow analysis to assess business creditworthiness, successfully onboarding companies with annual turnover between £1M and £10M.
- Positioned ICICI's differentiated business proposition -including MSWIP (0.4% debit card transaction fee) and 360-degree servicing -as a key driver of new client wins against competitor banks.
- Redesigned KYC/AML client onboarding workflows, cutting onboarding turnaround time by 35%, while driving 92% digital adoption across iMobile Pay, e-KYC and digital servicing.
- Grew the home loans portfolio by acquiring customers through webinars and promotional events with investment groups across Cambridge, offering up to 90% loan-to-value and terms up to 30 years, including balance transfer and top-up products, generating £5M in home loan originations within 3 months.
- Sponsored and represented ICICI at large local events to build relationships with HNI/UHNI prospects, expanding the bank's presence within the Cambridge investment community.

Business Consultant, Blackmont Consulting

Sept 2025 -Dec 2026

London, United Kingdom

- Delivered end-to-end consulting engagements for SMEs, NGOs and non-profits, translating business needs into structured proposals, business cases and delivery roadmaps supported by SWOT, PESTEL and Value Chain analysis.
- Led 8-week client engagements as senior consultant, coordinating weekly stakeholder sessions and maintaining project plans and schedules in MS Project and Asana to ensure 100% on-time delivery.
- Owned delivery across 5 concurrent client projects, running discovery workshops, conducting market and industry research, and producing clear management reports and status updates.
- Embedded risk and compliance considerations into client recommendations, ensuring proposals were practical for regulated environments and aligned with governance expectations.
- Maintained 95% client satisfaction through structured communication, proposal development and proactive issue resolution.

Blck.

Chief Product Officer & Co- Founder at Havoc Therapy

2018 Jan - 2024 August

Hyderabad, India

HAVOC
THERAPY

We
Hear
You

Havoc Therapy is a pioneering mental health company that has been at the forefront of leveraging technology and innovation to address the pressing mental health issues faced by individuals today. We Hear You and Freedom are two innovative products developed by Havoc Therapy. We Hear You is a revolutionary platform that aims to bridge the gap between individuals facing mental health challenges and the professional support they need. Freedom, on the other hand, is a platform specifically designed to address the mental health needs of students within the education system.

Strategic Partnerships & Industry Impact

- Co-founded Havoc Therapy in 2018 with a mission to improve mental health outcomes for individuals and communities in India. Developed and implemented a strategic plan that led to the launch of **two flagship** products, We Hear You and Freedom.
- Managed the software development process for a new product, coordinating with a team of software engineers to ensure timely and quality delivery.
- **We Hear You App** is the market leader in on-demand emotional wellness and professional support, via an app that offers a “sub-clinical” and **preventive** intervention.

- Created **Fleedom**, a platform designed to allow school systems to coordinate **early identification, assessment, care coordination**, and referrals with community partners that provide specialised services.
- Led the company through rapid growth, scaling the business from a startup to a successful company with over **100+ communities** across India.
- Secured **1 million** in funding from top-tier venture capitalists, positioning Havoc Therapy as one of the top 10 mental health companies in India (Silicon India), and achieving a **valuation of 10 million**.
- Led a diverse team of **450+ professionals**, including mental health experts, software developers, and business consultants, driving innovation and achieving 100% year-over-year growth in user base and revenue.

Key Accomplishments

- Achieved a **50% increase** in revenue within the first year of launch and a **100% increase** in the following year.
- Recognised by **Startup India** and **Symbiosis University**, among others, as a top mental health company in India.
- Achieved **profitability** within the first 2 years of launch. **86%** of Users feel better.
- WHY's Retention rate is above **60%**, which has outperformed other mental wellness apps. Daily Active Users - 29% & **Monthly Active Users - 32.5%. First time in India: a 4.5 App Rating**
- Reviewed and **endorsed** by psychologists and psychiatrists as an **evidence-based** solution.
- Built a **10k-strong community** for WHY and reduced its customer acquisition cost by **85%**
- Handled **end-to-end** release of 2 Agile products and features.

Sr. Growth Analyst at SuperGTM 
 2019 June - 2021 June
 Hyderabad, India

Super GTM offers various services to help its clients plan, position and promote their products or services with utmost utility value and value innovation. Some of the services include offline marketing, digital marketing, content marketing, network marketing, influencer marketing and mobile marketing. Super GTM claims to define the market for its clients before the market defines them.

Strategic Partnerships & Industry Impact

Key Accomplishments

- Led a team of experts in delivering customized solutions for various business challenges across different industries like education, and food. **Conceptualized and created** gamified learning experience.
- Leveraged skills in process optimization, solution design, and marketing strategy using blue ocean strategy to help clients improve their performance and achieve their objectives.
- Successfully implemented a new process for a pilot project that resulted in significant cost savings and increased customer satisfaction. Guided partnerships led **5 creative events**, making the first **100% remarkable sale**.
- Developed and executed innovative brand positioning and launch campaigns that generated buzz and interest among target audiences.
- Laid out the social media strategy with design ideation for **2 months**; creating **30% more engagement**.
- Led the re-positioning of Buffalo Wild Wings as a leading sports bar and restaurant chain in India by leveraging our extensive expertise in GTM design and execution.
- Conducted a thorough analysis of the organization's unique questions and challenges and developed a customized approach for **maximizing results across multiple marketing channels**.
- Achieved multi-fold growth in brand awareness, reach, and recall by implementing a multi-dimensional strategy that aligned with the defined short and long-term business objectives.
- Collaborated with the **Bangalore team** to develop and execute effective plans for stream and channel optimization, as well as to determine the as-is customer landscape and **target group decision parameters**.
- Monitored and evaluated the performance of the **re-positioning campaign** and provided actionable insights and recommendations for further improvement.

Project Manager at Digitech Peripherals 
2017 June - 2019 June
Hyderabad, India

Digitech
Peripherals

Digitech Peripherals is a well-established company with over 25 years of experience in the IT industry. Known for providing a wide range of IT consulting and services to both private and government organizations. Digitech Peripherals specializes in various aspects of IT, including cloud solutions, managed IT services, disaster recovery, cloud desktop solutions, network solutions, and support consulting.

Responsible for managing and optimizing the company's operational processes to drive growth and improve efficiency.

- Developing and implementing strategies to streamline workflows and **reduce costs**. Leading cross-functional teams to deliver projects on time and within budget.
- **Negotiating** and securing strategic partnerships with key industry players. Implementing cost-saving measures while maintaining high levels of **customer satisfaction**.
- **Developing** and implementing employee training programs to improve performance.
- I've cultivated strong and enduring partnerships with our clients by **consistently** delivering on our promises and maintaining open lines of communication. These relationships have not only led to repeat business but also generated referrals and **positive word-of-mouth**.

Key Accomplishments

- Successfully implementing a new project management system, resulting in a **25% increase** in productivity
- Leading the development and launch of a new line of cloud-based services, generating over **20 million** in revenue.
- Negotiating strategic partnerships that expanded the company's reach and **increased market** share.
- Reducing operating expenses by **20% through cost-saving** measures.
- Improving employee performance and retention through **comprehensive training** programs.
- One of my key achievements has been **reducing** project costs without compromising quality. By **optimizing** resource allocation, negotiating vendor contracts, and implementing cost-effective solutions, consistently delivered projects within budget and often under initial cost estimates.
- Several of our clients have experienced significant **improvements** in their IT efficiency and **productivity** as a result of our collaboration.
- Gained a deep understanding of our customers, competitors, and **market trends** to influence development and marketing strategies.

FREELANCE EXPERIENCE

Blossoming Boutique- Product Marketing Consultant

March 2025 - 2025 June
Buckingham, United Kingdom

- Spearheaded end-to-end innovation strategy development for Blossoming Boutique (UK artisanal gifts start-up)
- The project integrates **primary business data**, secondary market research, and **academic frameworks**.
- Conducting market analysis (**£1.88B sector**), competitive positioning mapping, and sustainability gap analysis.
- Designed a phased implementation plan to achieve **15%** projected margin growth through sublimation tech adoption.
- Crafted measurable KPIs including Sentiment Intensity Index (**+27% emotional engagement target**) and Artisanal Innovation Rate (**15→25 variants/month**).
- Delivered **360° risk** mitigation framework, reducing market cannibalization risks by **40%** via tiered branding and agile resource allocation.
- Presented final 25-page consultancy report integrating **Blue Ocean Strategy, Stage-Gate methodology, and diffusion theory** applications

VIVA Gym - Product Marketing Consultant

March 2025 - 2025 June
Buckingham, United Kingdom

- Presented end-to-end marketing transformation for VIVA Gym (Buckingham's **community-focused** fitness hub)
- Leveraging **competitive analysis** of local rivals (The Mill's premium recovery suites, Aqua Vale's aquatic facilities) to position VIVA's flexible Small Group PT and family memberships as **market differentiators**.
- Designed **data-driven campaigns** targeting underpenetrated youth/family segments, to achieve **28% membership growth** through SEO-optimized local search strategies and TikTok-driven Gen-Z engagement.
- To boost member **retention by 19%**.
- Implemented **referral incentives** and junior gym programming.
- Presented **strategic roadmap**.

Product Consultant at Sri Aurobindo Industries Private Limited

2024 January - Present
Bangalore, India

Sri Aurobindo Industries Private Limited (SAIPL), established in 1992 and headquartered in Bangalore, Karnataka, is a dynamic player in the machinery and equipment sector. Specializing in the manufacturing of LPG gas stoves and related products, SAIPL has rapidly positioned itself as a key contributor to the domestic appliance industry in India. With an ISO 9001:2015 certification, SAIPL upholds stringent quality standards in its manufacturing processes.

Key Accomplishments

- Site Assessment & Operational Planning (Jan 2024):
- Visited the Bangalore manufacturing facility in January 2024 to map **“as-is” processes**, identify waste, and draft an **improvement roadmap**.
- Employed **statistical techniques** (control charts, Pareto analysis) to pinpoint quality defects and variability in stainless-steel body fabrication.
- Spearheaded multiple DMAIC projects—ranging from **batch cycle-time reduction** to defect rate elimination—ensuring cross-functional buy-in and momentum.
- Implemented Lean tools (5S, Kaizen events) on the powder-coating line, **streamlining material flow** and reducing non-value-added steps.

Key Accomplishments

- **20%** Cycle-Time Reduction: Orchestrated a DMAIC project on burner assembly that cut cycle time from **10 minutes to 8 minutes** per unit, boosting throughput by **25%**.
- Leveraged root-cause analysis on welding defects to implement fixtures, reducing scrap rates from **6% to 5%**.
- Redesigned the ERP-based stock reconciliation process (Tally Prime), raising inventory record accuracy from **88% to 96%**.

Product Manager at Noma Financial

2022 June - 2024 Sept
Toronto, Canada

Specializing in short-term financing solutions, NOMA Financial is a Canadian fintech startup. NOMA Financial seeks to give underserved areas accessible and transparent financial services, with an emphasis on using technology to expedite the lending process.

EasyBucks: Oversaw the creation and introduction of this popular MVP payday loan product. EasyBucks has a 24/7 availability, an easy-to-use online application process, and rapid approvals for loans up to \$1500. acquired 180 clients in the first two months after launch, demonstrating strong market traction.

GetFlexi: Led the development of the sophisticated loan origination and management system (LOMS) known as GetFlexi. This all-inclusive platform, which includes strong user authentication, role-based access control, and connections with external services for identity verification and loan approval, simplifies the entire lending process from application to approval.

Key Responsibilities

- Spearheaded product strategy and roadmap creation for NOMA Financial's lending solutions, managing a product portfolio with an annual revenue target of **\$1 million**.
- Developed and executed a **3-year** product roadmap, aligning with company's goal to capture **15%** market share in the Canadian short-term lending market.
- Led a cross-functional team of **50+** including product managers, engineers, designers, and data scientists to deliver on quarterly OKRs.
- Collaborated with **C-suite** executives to align product strategy with overall business goals, resulting in a **25%** increase in market share over 18 months.
- Verify that the product complies with fintech industry regulations

Key Accomplishments

- EasyBucks MVP was successfully launched, and in the first two months, **180 clients** were added, increasing revenue for the company by 200%.
- Based on post-loan surveys, we were able to attain a **95%** customer satisfaction percentage for EasyBucks.
- **75%** shorter loan application processing times after GetFlexi's automated systems were put in place
- By utilizing sophisticated risk assessment algorithms in GetFlexi, loan acceptance rates were raised by 40% while the default rate remained low at **3%**.
- Oversaw the creation of GetFlexi, which led to a **50%** decrease in loan management operating expenses.
- Added **three loan** kinds to NOMA Financial's product lineup, boosting the entire addressable market by **150%**.
- Attained a month-over-month increase in loan originations of **30%** by means of ongoing product updates and improvements to the user experience.

Product Manager at Incubez Ott Private Limited
2022 June - 2023 June
Hyderabad, India

Conducted market research and user interviews to understand the needs and preferences of the target audience for video-on-demand (OTT) platform dedicated to promoting and showcasing video content related to the startup world.

Key Accomplishments

- Led the end-to-end product development process for Incubez, a premium OTT platform for startup enthusiasts, that achieved over 500 subscribers and **4.7-star** rating on the app store within 3 months of launch.
- **Conceptualize** new solutions: Product Conceptualization with a problem first, **data-driven** and test & iterate approach. Ensures conceptualization from a platform and a long-term view. Ensures **value-based** prioritization of product initiatives.
- Worked with sales team and partners with **robust sales strategies**, tools, and resources, including presentations, demo scripts, videos, case studies, and solution blueprints to highlight product value.
- **Investigate** and provide solutions to complex issues
- Deliver high-quality customer service in the form of **2nd line** support
- Writing up **requirements** for new features and functionality
- Draft and execute a **go-to-market** plan in conjunction with Product Marketing. Be the internal and external authority and advocate for given area of focus.

Freelance Product Manager at Scores'n'Ranks 
2021 June - 2022 June
Hyderabad, India

Leading the end-to-end product development process, from ideation to launch, for Scores'n'Ranks, an exam preparation app that offers over 20000 questions, across the various topics of mathematics, physics and chemistry.

Key Accomplishments

- Led the end-to-end product development process for Scores'n'Ranks, an exam preparation app that achieved over **1,000 downloads** and **4.5-star** rating on the app store within six months of launch.
- Conducted market research and user interviews with over **100 potential** and existing users, identifying key pain points, needs, and preferences, and translating them into user personas, user stories, and product requirements.
- Serve as a subject matter **expert** in customer interactions and deal support.
- Establish and monitor **key metrics** for success in projects.
- Working with **cross-functional teams** to build a user-centric, engaging, and high-quality app that uses **gamification** and **adaptive learning** to improve the learning outcomes and retention of the users.
- Managing the **product backlog**, prioritizing the user stories, and defining clear and concise acceptance criteria for each feature.
- **Troubleshoot** problems in a timely manner
- Product development review (**UAT/ QA**) for software fixes and new features
- Worked collaboratively with customers and development throughout the **lifecycle** for new features.
- Identified and evaluated **inefficiencies** and recommend the optimal business practice and system functionality/behavior.
